INLAND
TRUCK & EQUIPMENT

Nov 21, 2025

To Whom It May Concern,

Over the past five years, Mccullagh Distribution has assisted our organization with the relocation of assets across North America.

They have supported the Inland Group by transporting equipment from our Kenworth manufacturing facilities in Renton, Washington and Chillicothe, Ohio, as well as from body builders including Miller Industries in Greenville, Ohio and London Machinery in London, Ontario.

Throughout this time, Mccullagh Distribution has proven to be a reliable and professional partner. Their team consistently demonstrates strong communication, flexibility, and attention to detail when handling our equipment. Their ability to meet tight timelines and manage complex logistics has made them a key partner for the Inland Group.

We value the relationship we have built with Mccullagh Distribution and look forward to continuing our partnership in the future. I would not hesitate to recommend them to any organization requiring dependable asset relocation services.

Sincerely,

Dave Boyle
Corporate New Truck Sales Manager, Canada & US
